  - **DHLPP/DHPP** — Distemper, Hepatitis, Leptospirosis, Parainfluenza, Parvovirus vaccinations must be current and kept up-to-date. Leptospirosis is optional and at the discretion of your veterinarian, but you should advise your veterinarian that your dog spends time in a rural setting.

  - **State License** — It is a Pennsylvania law that all dogs age **three months and older** have an annual license. This license is issued by the Treasurer's Office for the County in which you reside.   - **Fecal Test**— All dogs must have a fecal flotation test by your veterinarian within 30 days prior to boarding the first time and every six months thereafter. The results must be negative for all parasites and bacterial infection. If any parasites or infections are found, your dog cannot be boarded until the test is repeated and the results are negative.
  - **Contagious Diseases** — At the time of boarding, dogs must be free of any illness or disease that could be potentially harmful to other dogs. **Dogs must not have been treated for any communicable disease in the past 14 days** and/or have completed the prescribed antibiotic or treatment. A veterinarian health certificate may be required.
